Brian Cruickshank, MD
Director, Concussion Management Program

NEW! Stony Brook Concussion Management Program

Developed in accordance with the recently enacted New York State "Concussion Management and Awareness Act" of 2011, Stony Brook Orthopaedic Associates has established one of the region's first programs specializing in this potentially life-threatening injury.

Studies have shown that subsequent brain injury and/or permanent damage occurs in approximately 40% of student athletes that return to sports too soon following the diagnosis of a head injury. At the **Stony Brook Concussion Management Program**, **Dr. Brian Cruickshank** and his board certified colleagues at Stony Brook Medicine seek to properly evaluate and follow up on student athlete head injuries in order to ensure their safe return to sports.

For more information regarding the Concussion Management Program, to refer a patient and/or to request your free Sport Concussion Assessment Tool (SCAT2), please call (631) 444-4233.
