## Patient Information and Referral Guide

**STONY BROOK**  
Ophthalmology

# Department of Ophthalmology

The Department of Ophthalmology at University Hospital and Medical Center at Stony Brook is a fully integrated multi-specialty ophthalmic group offering a wide range of ophthalmic services. We are committed to providing the highest quality care for patients with all types of eye diseases and visual problems. We strive to educate and advise patients about their specific eye problems; to communicate with the referring health care providers in order to provide timely, well coordinated care; and to treat our patients with efficiency, respect and compassion.

*Patrick Sibony, MD  
Professor and Chairman*

Located just off Nesconset Highway, our modern outpatient facility provides easy access and ample parking.

Newly built, state-of-the-art ambulatory surgery unit enables us to provide same day surgery in a comfortable and convenient facility.

## General Services

### Comprehensive Ophthalmology

- Primary eye care
- General eye exams for adults and children
- Cataract surgery

### Optometric Services

- Primary eye care
- Contact lenses
- Low vision
